## SUMMARY

I'm a dedicated and detail-oriented frontend developer, and I've excelled as one of the top students at Makers Bootcamp. My excellent skills in frontend development include a rapid mastery of Redux-Toolkit combined with TypeScript. I'm known for my strong work ethic, persistence, and my willingness to tackle new challenges. I'm not afraid to learn and apply new concepts, and I believe I can contribute significantly to your company's growth, both in terms of technical development and fostering a positive work environment."

## WORK EXPERIENCE

### Makers (Internship Program)

June 2023 – September 2023

- *As part of a school project, we collaboratively developed an online learning platform. I was responsible for designing course interfaces, implementing a favorites system, and creating a user profile with language switching functionality, working in close collaboration with a designer and the back-end team. The project was successfully completed within a three-month timeframe, and we achieved second place in a competition, earning certificates to acknowledge our accomplishments.*
- ***Stack***: *Typescript, Vite, Redux-Toolkit, Sass/Scss, FSD, React, React Router, React Router Dom.*
  *GitHub: https://github.com/Addcodee/school-app*

### Pet projects and hackathons

*Pet projects*

- *Developed a contact manager with features for adding, editing, and deleting contacts, as well as searching and detailed contact viewing.*
- ***Stack***: *Javascript, Vue, Vue Router, Css, Axios, Bootstrap, Vite.*
  *GitHub: https://github.com/zholbolduev/contact-manager*

*Hackathon*

- *I was responsible for developing and managing the admin panel (editing, adding, deleting), overseeing the main page, and implementing a "Favorites" feature for character cards. The project was successfully completed with a high rating.*
- ***Stack***: *Javascript, Css, React, React Router, Mui, Firebase, Swiper.*
  *GitHub: https://github.com/zholbolduev/genshin-clone*

## EDUCATION

**Makers Bootcamp** *— 4 months*
